

CHALISA, 13

I WISH TO HAVE A BEDROOM REDO

Chalisa is a vibrant and artistic thirteen-year-old girl with a love for listening to music and playing with her dog, Bella. Unfortunately, Chalisa suffers from a life-threatening medical condition that makes it hard for her to have free time to just be a normal teenager. That is why the Make-A-Wish® North Texas stepped in to grant this unique young lady her one, true wish.

After giving her wish some thought, Chalisa knew what she wanted... something that she could enjoy every day. She wished to have a bedroom redo! This was the perfect wish for Chalisa because she had wanted to update her bedroom for quite some time, and knew that this was the perfect opportunity to have it redone exactly the way she wanted!

On her wish day, Chalisa could already envision exactly how she wanted her room to look. She went out to lunch with her family in a limousine as before going shopping for new bedroom furniture. After picking everything out, Chalisa was so excited for her old room to be transformed into the room she had been dreaming of. Her Wish Granters installed brand new carpet, mounted an awesome 32" television on her wall, and hung new blinds and curtains in the windows. Her favorite part was when they began to bring in all of her brand new furniture! Her Wish Granters brought in a beautiful bed frame, night stands to match, a dresser, an arched mirror, and a silver bubble chair that hung from the ceiling. Chalisa could hardly believe this was actually her very own room!

Chalisa was so amazed by how wonderful her new room looked. It had everything she wanted, and more! She could not wait to invite all her friends over to show off her brand new furniture. She now has a place that she can proudly call her own!

THANKS TO YOU A WISH CAME TRUE!
