

Tyler's Disney Wish!!!

Tyler, like most eight-year-old boys, lives for action. He loves swimming and playing with his sister. However, when Tyler was diagnosed with a life-threatening medical condition, some of his adventures had to be put on hold. Tyler got through days at the hospital by watching his favorite Walt Disney movies and dreamed of a time when he could meet them all at *the Happiest Place on Earth*.

Wishgranters from the Make-A-Wish Foundation® of North Texas went to work planning the best trip to Walt Disney World Tyler and his family could imagine. Finally, the day came when Tyler boarded the airplane and flew to Orlando, Florida for the wish of a lifetime.

Once they arrived in Florida, Tyler and his family stayed at the Give Kids the World Village, a home-away-from-home for wish kids and their families. At Give Kids the World Village, Tyler had ice cream for breakfast, pizza for lunch, met all the characters, including Mickey Mouse, his favorite, and had a blast!

Tyler's family spent plenty of time at the theme parks. He enjoyed riding the roller coasters and screaming as they climbed and barreled down the steep tracks. Tyler was also able to see all the animals at Animal Kingdom. His family spent one whole day there. Although he loved the African Safari, the Tree of Life, and the bug exhibit, the gigantic monkey exhibit was his favorite. His family had never seen him so happy!

Tyler was able to enjoy beautiful weather, a fun-filled adventure with his family, and a chance to escape the worries that come with his condition. Tyler's entire family is grateful to everyone involved in granting his wish. The memories they share as a result of Tyler's wish come true are sure to last them a lifetime.

Tyler's wish was generously sponsored by the Irving Police Association
