

# Wishing for the Top Score

For seven-year-old Juan, playing video games is the best relief from his doctor appointments and medicine. Considering all the time Juan spends with his brothers and friends playing video games, a shopping spree for more video games was the perfect wish.

Juan's wishgranters from the Make-A-Wish Foundation® of North Texas organized a shopping spree for Juan that would knock his socks off! A limousine picked Juan and his family up at their front door and whisked them away on a frenzied ride through malls and entertainment stores.

After a long morning of shopping from store to store, the ride slowed down for only a moment to eat lunch at Juan's favorite restaurant, CiCi's Pizza. Then it was time for more shopping for new PlayStation games.

Back at his house Juan immediately began setting up his new games to challenge his brothers to a battle. Juan wasn't slowed down for a moment by the whirlwind morning of shopping, it was time for some competition!

Juan gained more than he wished for on his exciting shopping spree. He not only got the games and goodies he wished for but he also gained lasting memories of his wish come true.

**Juan's wish was generously sponsored by the  
Irving Police Association**
