

SYDNEY, 8

I WISH TO GO TO WALT DISNEY WORLD

Eight-year-old Sydney is just like any other girl her age. She enjoys listening to music, reading books, and playing computer games with her brother. Sydney also enjoys watching her favorite movie, the *Little Mermaid*, and loves anything that has to do with Disney. However, Sydney suffers from a life-threatening medical condition that takes away from her free time to do the things she enjoys the most. That's when the Make-A-Wish Foundation® of North Texas stepped in to grant Sydney a special wish of her own!

Wanting to visit the princesses, it was very easy for Sydney to decide on what she wanted her wish to be, a trip to Walt Disney World! Sydney and her family traveled to Orlando excited to spend 5 days exploring all of the magic and adventure that Walt Disney World has to offer. They stayed at *Give Kids the World Village*, a resort complete with an ice cream bar that is open until midnight, providing sweet treats for Sydney and her family. Sydney also had the opportunity to meet the Disney princesses, and give big hugs to her other favorite characters!

Sydney had a wonderful time and was so glad she was able to experience the "greatest place on earth". She and her family will cherish the happy memories they made together for a long time to come. Thanks to Sydney's wish sponsors and the Make-A-Wish Foundation® of North Texas, Sydney and her family now know the hope, strength and joy that the *power of a wish*® can bring into a life.

THANKS TO YOU A WISH CAME TRUE!
