

I WISH FOR A DISNEY WORLD ADVENTURE!!

For 12-year-old Joseph, his wish had to include riding on an airplane for the very first time. The destination Joseph wished for –Walt Disney World.

The day finally came for Joseph to take flight. He was both frightened and excited about the idea of riding in an airplane. Once the plane soared into the air, all of Joseph's inhibitions melted into pure exhilaration for what awaited him when he landed.

Joseph didn't waste a moment. He rode LOTS of rides. He particularly liked all the roller coasters, especially the Tower of Terror. Joseph wanted lots of souvenirs. He wanted something to remember each moment of his trip.

One of Joseph's hopes for his Walt Disney World adventure was to eat LOTS of ice cream. Luckily, at Give Kids the World Village, a special place for wish kids and their families, there was an ice cream parlor open 24 hours a day!

Now that Joseph has returned from his wish, his future is looking bright. Joseph acknowledges that having his wish granted changed his outlook on life and without it he probably wouldn't be where he is today.

Joseph looks back fondly on his wish. Luckily he has all his extraordinary souvenirs and pictures to remind him of his adventure. Joseph's family feels truly blessed by the generosity of the Make-A-Wish Foundation. Joseph also loved this time with his family, away from the daily medical life at home, though he still believes since his siblings got to enjoy the wish too they should at least have to get a shot!!
